

Team Contract: enguyen peterkg sorawit

Goals:

- Finishing the project in a timely manner.
- We all want an “A” on this project
- Obstacles: Multiple final projects for different classes

Meeting Norms:

- Normal meeting location: Student center
- Meet together during **class time** to work unless we need to ask TA’s questions
- Meeting times: variable, just message each other
 - Meet Sunday to integrate phase 1: 2pm at student center 5th floor

Work Norms:

- We will record who is responsible for what on this contract:
 - Enguyen – ANTLR grammars
 - Peterkg – Server/Client
 - Sorawit – Physics ADT
- If someone doesn’t follow through on a commitment, the rest of the team shall annoy them until they come to the meetings and explain themselves.
- What happens if people aren’t doing their share of the work? If there is legitimate reason as for why the work can’t get done, the rest of the team just has to try and pick up the work.

Decision Making:

- Majority rule – while trying to explain with 3rd person as to why such a decision should be made
